SOLAR SYSTEM

The industry's most efficient solar system powering your home.

DXM SOLAR SYSTEM MORE POWER AT UNBEATABLE PRICING

With our efficient solar panels at 340w per panel and our powerful pure sine wave inverters at 15,000 W, 60,000 W peak power we are the industries most powerful solar system. We are capable of running Air Conditioners, power tools, motorized equipment, washing machines or microwaves. DXM Lithium batteries have power to run an electric car and will store your home power needs efficiently and reliably. Our system can monitored on a n LCD screen and comes standard with overheating and short-circuiting protection.

Guaranteed the lowest price in the market at the highest value.

SAVE MONEY OWN YOUR POWER

Solar energy helps you save money on electricity bills and protects against price rises imposed by utility compa-

SUN ENERGY POWER YOURSELF

West African countries can boast of an average of 10 hours of sun, you have access to this power to store in our batteries.

LEAVE IT TO US ENDLESS POWER

We will install the system and monitor the equipment for the first year to ensure that it is at its highest performance for your enjoyment.
