SOLAR INVERTERS

The industry's most powerful inverters
powering your home.

DXM SOLAR INVERTERS HIGHEST CAPACITY AVAILABLE IN THE MARKET

DXM inverters are pure sine wave inverters. Our inverter is 15000W with 60000W peak power. This makes it powerful enough to run Air Conditioners, power tools, motorized equipment, washing machines or microwaves. They feature an LCD screen which will allow you to monitor power usage and battery health. As standard it comes with overheating and short circuiting protection.

DXM SOLAR INVERTER SPECIFICATIONS

Continuous Output Power	Max Output Power	DC Input Voltage	AC Output Voltage	Output Wave Form	Dimensions			Weight
					Length	Width	Height	
15,000W	60,000W	48V	110V/ 220V	Pure Sine Wave	31in	22in	12in	40kg

SAVE MONEY OWN YOUR POWER

Solar energy helps you save money on electricity bills and protects against price rises imposed by utility compa-

SUN ENERGY POWER YOURSELF

West African countries can boast of an average of 10 hours of sun, you have access to this power to store in our batteries.

LEAVE IT TO US ENDLESS POWER

We will install the system and monitor the equipment for the first year to ensure that it is at its highest performance for your enjoyment.
